

Professional Event Management Masterclass

10 & 11 June 2026

HRD Corp Prog
No 10001657255

Malaysia's events and business tourism sector continues to be a significant economic driver, contributing billions of ringgit annually and supporting a wide ecosystem of venues, suppliers, and professional service providers. As the industry matures, expectations around governance, safety, sustainability, inclusivity, and return on investment have increased substantially. Many event delivery challenges today arise not from creativity, but from gaps in structured planning, budgeting, risk management, stakeholder coordination, and post-event evaluation, particularly within regulated and corporate environments.

This **2-day** Event Management Workshop will be delivered **100% online**, and is designed to address these realities by equipping participants with a practical, end-to-end understanding of professional event management within the Malaysian context. Covering the full event lifecycle, from initiation and concept development to delivery, shutdown, and evaluation, the programme integrates key considerations such as regulatory compliance, organisational policies, accessibility, risk management, and sustainable event practices. Participants will also be introduced to best-practice tools, project management frameworks, and the strategic use of AI to enhance event planning, programming, and operational effectiveness.

Who should attend: *Event Manager, Wedding Planner, Coordinator, Catering/Banquet Operations, Conference/Exhibition Manager, Festival/Sports Director, Event Safety Officer, Crowd Control Supervisor, Event Marshal, Usher, Host / Emcee, Promoter, Brand Ambassadors.*

Learning Objectives - *By the end of this workshop, participants will be able to:*

- Build an appreciation of external and internal factors with the potential to impact the event management planning and delivery process.
- Develop the ability to create an event concept capable of delivering upon its stated purpose(s).
- Develop an understanding of the event initiation, planning, delivery, shutdown and evaluation processes along with key practices associated with each of these steps.
- Engage in the use of 'best practice' event management tools & processes including the use of AI.
